PROFESSIONAL SUMMMARY

I am a fresher interested in Java Full Stack Development. I have knowledge of Java, Spring Boot, React, MySQL, and REST APIs. I enjoy learning new technologies and building web applications. I am looking for an opportunity to improve my skills and grow as a developer in a professional environment.

PROJECTS

Order-It-Web – Food Ordering Web Application

Tech Used - Reactjs , Springboot , MySQL , Java , RestAPI
Developed a full-stack web application using React for the user interface, Java and Spring Boot for backend logic and REST APIs, and MySQL for database management. The application allows users to view products, place orders, and manage order details efficiently.

UI/UX design
Collaborated with classmates to design a mobile based application design for fantasy gaming platform using Miro and Figma.
